Report on the Multiplier event: Promotion of project STEAM achievements

**Mathematics of the Future: Understanding and
Application of Mathematics with the help of Technology**

Project number: 2020-1-RS01-KA203-065388

Date: 12 May, 2022.

Place: Congress Centre, Ohrid.

On 12th of May 2022 in Ohrid, Republic of North Macedonia the multiplier event on promotion of the project activities of the Erasmus plus project “Mathematics of the Future: Understanding and Application of Mathematics with the help of Technology” was held. The venue of the event was the Congress Centre in Ohrid. The organizer of this event was the Union of researchers of Macedonia as a partner organization in this Erasmus plus project.

The event started with registration for participation of the quests from Croatia and Turkey. Also, the local participants from North Macedonia were registered

After the registration of all the participants, the promotion of the project results began with the talk: “FutureMATH project” by prof. Biljana Jolevska-Tuneska from

organizer, the Union of researchers of Macedonia. In her talk Biljana gave a short description of the FutureMATH project, explained the steps made through the project, its results, and mostly talked about the intellectual outputs covered by this project.

After her talk and the coffee break followed prof. Ana Vukelic talk: "Opportunities within the Erasmus plus programme".

At the end of the event, the round table was held. On this round table the participants talked about the FutureMATH project, and asked different questions on using the results of this project.

Personal contacts between all the participants were made, and future work between them is planned.
